Instructions

- Use **black** ink or ball-point pen.
- Fill in the boxes at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided there may be more space than you need.
- Calculators may be used.

Information

- The total mark for this paper is 100
- The marks for each question are shown in brackets
 use this as a guide as to how much time to spend on each question.
- Questions labelled with an **asterisk** (*) are ones where the quality of your written communication will be assessed.

Advice

- Read each question carefully before you start to answer it.
- Keep an eye on the time.
- Try to answer every question.
- Check your answers if you have time at the end.

1.

David earns a salary of £3500 per month.

He gets a pay rise of 4%.

Work out his new monthly salary.

(3)

.....

2(a)	Helen wins a race.
	Her time is recorded as 50.36 seconds. Andrew
	comes second in the race.
	His time is three-hundredths of a second slower.
	Work out Andrew's time.

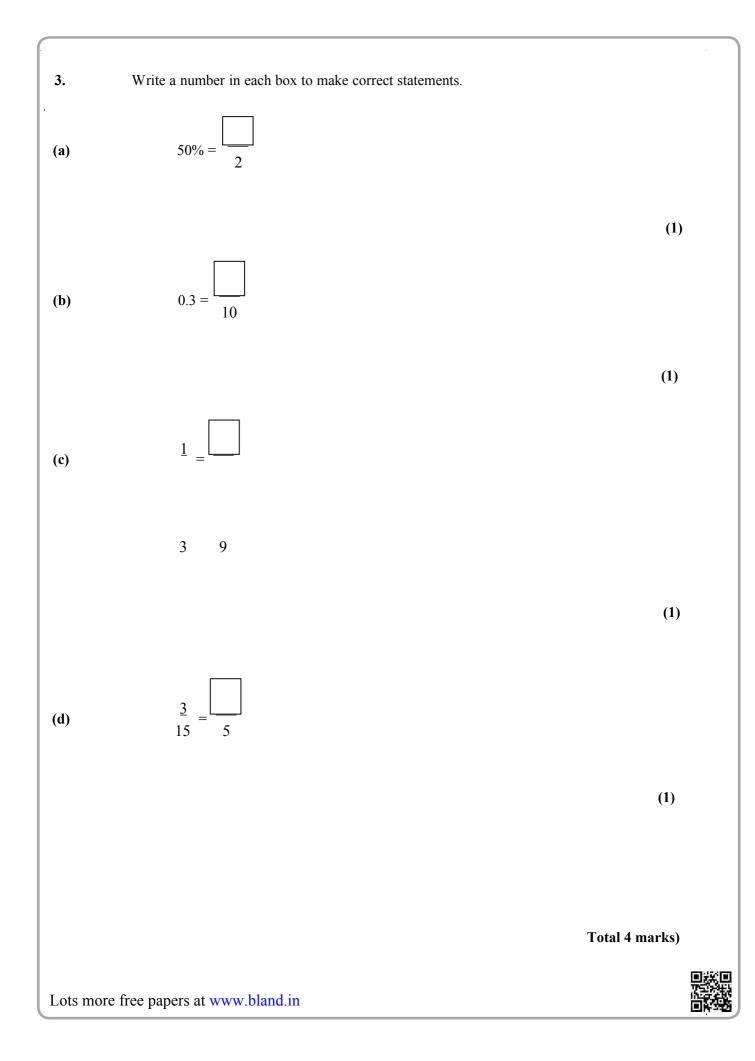

(2)

(b) Round Andrew's time of 50.36 seconds to 1 decimal place.

4. Two banks calculate the yearly interest they pay customers.

Westminster Bank

4% of the total that you invest For example: Invest £700 Interest = 4% of £700

District Bank

1% of the first £300 that you invest 6% of amounts over £300 that you invest

For example: Invest £700 Interest =1% of $\pm 300 + 6\%$ of ± 400

Ashna has £500 to invest for one year.

Work out which bank will pay her more interest. State how much **extra** interest she will earn.

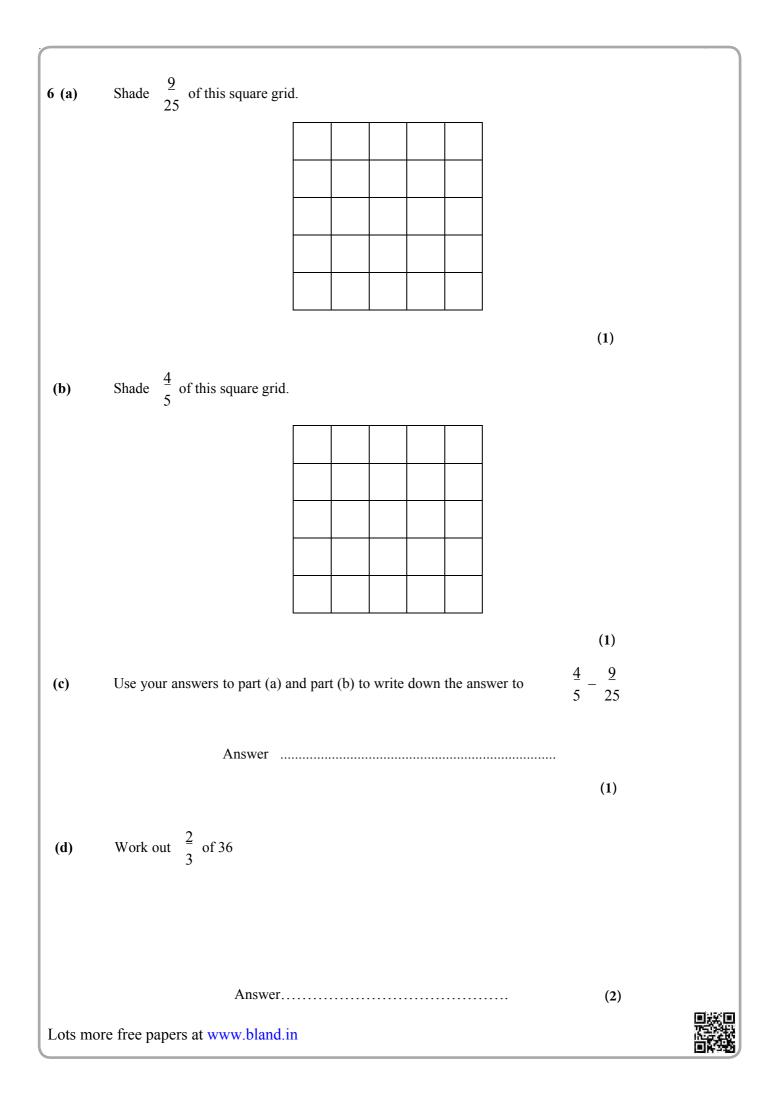

5	There are 180 people at a wedding. 20% are children.				
	One-half are men. The rest are women.				

How many women are at the wedding?
